**PUBLICATION AND MICROFILM
COPYING RESTRICTIONS**

Reel duplication of the whole or of any part of this film is prohibited. In lieu of transcripts, however, enlarged photocopies of selected items contained on these reels may be made in order to facilitate research.

A Note on the Sources

The pages which were microfilmed for this collection are in generally good condition in the original. There are some pages, however, which due to age are lighter than normal. Additionally, because some volumes are very large and have been bound tightly and cannot be unbound, there are intermittent occurrences of slight distortion of the edges of a small percentage of the pages. We have made every technical effort to ensure complete legibility of each and every page.

EDISON & UNGER ACCOUNTS

Labor and Cost Accounts

Edison & Unger Accounts, Cat. 30,107

This set of approximately 30 pages, covering the period October-December 1871, contains weekly payrolls that record the hours, piecework, and pay of each company employee. The total amount paid in wages and advances is also tabulated.

Newark Telegraph Works/Edison & Unger Accounts, PN-71-10-30

This pocket notebook was used primarily as a time book covering a period from December to February, probably 1870-1871. The first part of this book records workers' hours and pay. Starting from the back of the book is a series of stock room inventories. The front cover is marked "Time Book," the back cover is marked "Time Book Newark Telegraph Works 1871 Edison & Wm. Unger." About 50 pages of this unnumbered book have been used.

Edison & Unger Accounts, PN-72-04-30

This pocket notebook contains cost accounts, and a list of parts, for the manufacture of universal printers for the Gold & Stock Telegraph Co. The only dated entry is for April 30; the year is probably 1872. Thirteen pages of this unnumbered book have been used.

Records of the delivery of the printers to the Gold & Stock Telegraph Co. can be found in pocket notebooks, PN-71-09-06 and PN-72-07-12 (Books of Original Entry).

Edison & Unger Accounts, Cat 1211

This set of approximately 30 unbound pages, covering the period November 1871-August 1872, contains three groups of documents. Stockroom records for November 1871-January 1872 are on pages 9-16 and 23-30. These pages indicate the tools and supplies taken from stock. Pages 42-50 contain monthly summaries of the value of materials taken from stock, along with corresponding monthly labor costs for specific instruments, for the period January-May 1872. Pages 57-66 contain labor and cost accounts for March-August 1872.

Missing pages: 17-22, 31-40, 51-56.

Edison & Murray Accounts, Cat. 1214

This book, covering the years 1872-1877, consists of daybook entries, orders, cost accounts, petty cash accounts, and miscellaneous notes and accounts. Pages 3-25 cover the period February-September 1872 and contain daybook entries for the firm of Edison & Murray. Pages 27-54 record outgoing orders for December 1872-January 1875. Pages 60-126 contain cost accounts for research on various inventions. (A similar list can be found in NS-75-001, Unbound Notes and Drawings, Notebook Series.) The costs of developing the acoustic telegraph over the period November 1875-March 1877 are recorded on pages 132-141. Petty cash accounts kept by Charles Batchelor for the period July-December 1874 can be found on pages 150-161. A record of the delivery of telegraph equipment from November 1874 through May 1875 appears on pages 200-305. Mixes of various chemicals and their uses are described on pages 432-435. The spine of this book is labeled "DAY-BOOK." A two-page index precedes 516 numbered pages.

Blank pages not filmed: 128-131, 142-143, 148-149, 162-199, 312-343, 346-349, 352-375, 380-393, 396-399, 402-411, 414-431, 436-443, 446-447, 450-453.

Missing pages: 281-282, 287-294, 297-298, 301-302, 455-514.

THE REDUCTION RATIO FOR THIS DOCUMENT IS 16:1

A Note on the Sources

The pages which were microfilmed for this collection are in generally good condition in the original. There are some pages, however, which due to age are lighter than normal. Additionally, because some volumes are very large and have been bound tightly and cannot be unbound, there are intermittent occurrences of slight distortion of the edges of a small percentage of the pages. We have made every technical effort to ensure complete legibility of each and every page.

COPYING RESTRICTIONS**

Reel duplication of the whole or of any part of this film is prohibited. In lieu of transcripts, however, enlarged photocopies of selected items contained on these reels may be made in order to facilitate research.
